

The documentation and media on this DVD are for internal HP employees who must understand, use and possibly support the HP OpenView Configuration Management Solutions. The guide covers three general topics, including:

- An overview of HP OpenView Configuration Management Solutions products.
- Instructions for installing and configuring the HP OpenView Configuration Management Solutions products in this very specific, single server environment to be used for the exercises.
- Exercises that demonstrate the basic capabilities of the HP OpenView Configuration Management Solutions products.

This guide is NOT intended to be used to set up a production version of the HP OpenView Configuration Management Solutions.

The primary objective of this guide is to provide a starting point for your journey to understand HP OpenView Configuration Management Solutions. Once you have an introduction to some of the solutions, you can access additional resources to learn more.

To use this document successfully, you must complete the entire installation in the sequence presented in this document.

You MUST use the media and tools provided and follow the instructions in the documentation to ensure success.

If you have questions, contact Tara English-Sweeney at [tara.english-sweeney@hp.com](mailto:tara.english-sweeney@hp.com).

Next, please open HP OVCM Concepts and Processes v1 Test.doc and follow the instructions.
